Objective & Summary:

Start a web developer career in a promising company with a friendly team and in a few years to reach the level of Middle or Senior Front-end Developer. Experience in developing various web sites in Hypertext Markup Language (HTML), CSS and JavaScript programming language. I also have C / C ++ programming experience and work with graphics packages such as Adobe Photoshop. I have good analytical skills. Easy to learn. I work well in a team.

Skills:

- strong knowledge HTML5 & CSS3
- CSS Framework Bootstrap
- LESS & SASS
- JavaScript, JQuery, JQuery UI
- CMS Opencart
- db MySQL/phpMyAdmin
- Git
- initial knowledge of PHP
- adaptive layout, responsive layout
- English: upper-intermediate level.

Experience:

In addition to web development labs, I tried to work on some web projects (for example, a fast-food network) on the github: <https://github.com/Kompasua>. I also worked as a front-end developer in the trading company OOO "Proektika" for almost half a year.

Education:

From 2016 student of *National Technical University of Ukraine “Igor Sikorsky Kyiv Polytechnic Institute”*. Specialty: *computer science*.
